EDUCATION

National Institute of Technology <i>Master of Technology in Computer Science and Engineering, CGPA-8.71</i>	Surathkal, Karnataka <i>Aug. 2025 – Present</i>
Aliah University <i>Bachelor of Technology in Computer Science and Engineering, CGPA-9.15</i>	Kolkata, West Bengal <i>Nov. 2020 – Jun. 2024</i>

PROJECTS

SyncTalentAI — AI Resume Intelligence Platform <i>Python, FastAPI, React</i> <i>PostgreSQL, Redis, WebSockets</i>	Mar. 2026 – Present
- Developed a scalable platform to address problem of lack of structured feedback for candidates on their resume and inefficiencies in high-volume resume screening. - Designed a multi-stage resume processing pipeline (BM25 + scoring) to generate ranked candidate lists for recruiters. - Built and deployed RESTful backend services using FastAPI with PostgreSQL and Redis for efficient data handling and low-latency performance. - Engineered a real-time communication system using WebSockets to enable many-to-many interaction between users.	
FreeMindAI — Mental Health Support Platform <i>Python, Streamlit</i> <i>Pinecone, LangChain, RAG</i>	Dec. 2025 – Dec. 2025
- Developed a platform to address mental health accessibility gaps by enabling users to access support services remotely. - Designed a stateful backend system to manage multi-step user interactions, integrating LLM-based reasoning for context-aware responses. - Integrated a vector database (Pinecone) for efficient semantic retrieval and deployed a web application ensuring responsive performance.	
A Generative Approach for Creating Unique High-Resolution Garment Sample <i>Python, ReactJS, ExpressJS, Django, MongoDB, Selenium</i>	Aug 2023 – Jun 2024
- Developed a system to generate high-resolution garment designs, addressing the lack of affordable personalized fashion solutions. - Built and integrated a DCGAN-based model into backend service for automated image generation. - Designed and implemented RESTful APIs using Django and Express.js for handling image generation, classification, and data management. - Developed a full-stack web application with React and MongoDB, enabling interactive visualization and efficient storage of generated designs.	

TECHNICAL SKILLS

Languages: Python, C++, SQL
AI / Deep Learning: PyTorch, LangChain, LangGraph, RAG, Agentic AI
Web Development Frameworks: ReactJS, Node.js, ExpressJS, Django, FastAPI
Developer Tools: Jupyter, Kaggle, Colab, VS Code

LEADERSHIP & RESPONSIBILITIES

Career Development Center <i>Internship Coordinator</i>	NITK, India <i>Oct. 2025 – Present</i>
Collaborating closely with placement coordinators to streamline internship and placement processes.	

ACHIEVEMENTS

- Solved 700+ problems on **LeetCode**
- GATE 2025 - Rank 1916
- GATE 2024 - Rank 13242
- WBJEE - Rank 6833
